*Becoming Girl* interrogates the everyday of girlhood through the collaborative feminist methodology of collective biography. Located within the emergent interdisciplinary field of girlhood studies, this scholarly collection demonstrates how memories can be used to investigate the ways in which girlhood is culturally, historically, and socially constructed. Narrative vignettes of memory are produced and collaboratively investigated to explore relations of power, longing, and belonging, and to critically examine the ways in which girlhood is constituted. These are snapshot moments that, when analyzed, expose the social, embodied, and affective processes of "becoming girl," making them visible in new ways. Incorporating the concepts of Gilles Deleuze, Judith Butler, and Michel Foucault, the authors investigate food, popular culture, sexuality, difference, literacy, family photographs, and trauma. Bringing together international and interdisciplinary girlhood scholars, this volume provides an innovative, inclusive, and collaborative method for understanding the relationship between the individual and the collective.

### Reviews

*Becoming Girl* reorients and reimagines what it means to research the girl in girlhood studies through an innovative theoretical engagement with the collective biography method. This is a powerful collection that opens up the methodological imagination of what (else) feminist qualitative inquiry can do. Read this collection and become entangled with your own girling memories.— Emma Renold, Cardiff University, author of *Girls, Boys and Junior Sexualities* (2005); *Children, Sexuality and the Sexualisation of Culture* (2014); and co-author of *Stolen Becomings: Girls, Desire, and Sexuality* (forthcoming). *Becoming Girl* offers the first comprehensive account of the usefulness of collective biography for feminist research and its particular importance for girlhood studies. Across this set of insightful essays, collective biography emerges as a method with new potential for understanding what girlhood means to women and to girls, as an individual and collective experience and as a historical and contemporary representation.— Catherine Driscoll, University of Sydney, author of *The Australian Country Girl: History, Image, Experience* (2014); *Teen Film: A Critical Introduction* (2011); *Modernist Cultural Studies* (2010); and *Girls: Feminine Adolescence in Popular Culture and Cultural Theory* (2002).
